I am fellowship-trained in male and female continence, pelvic reconstructive surgery, and neurourology. I specialize in pelvic reconstructive surgery and surgical and nonsurgical treatments for male and female urinary incontinence, overactive bladder, pelvic organ prolapse, neurogenic bladder, urinary fistulae, and pelvic pain. My time is split evenly between clinic evaluation of patients, office procedures including video-urodynamics, cystoscopy and intravesical botulinum toxin A injections, periurethral bulking injections, peripheral sacral nerve evaluation and operative procedures including robotic and minimally invasive surgery. I also see a breadth of general urologic conditions including nephrolithiasis, hematuria, benign prostatic hypertrophy, erectile dysfunction and genitourinary infections.
